Rule 2: Application of Rates and Charges

Effective: November, 10, 2010 Thru: NONE Expires: NONE Publish: November 10, 2010

- 1. Rates published in this tariff are stated in terms of U.S. Currency and apply per 1 Cubic Meter (M) or 1,000 Kilos (W), as indicated, whichever basis yields the greater revenue, except as otherwise specified. Where the word “Weight” or the letter “W” appears next to an article or commodity, weight rates are applicable without regard to measurement. Where the word “Measurement” or the letter “M” appears next to an article or commodity, measurement rates are applicable without regard to weight.**

All freight rates and other charges shall be based on the actual gross weight and/or overall measurement of each piece or package, except as otherwise provided.

Rates indicated by W/M or WM are optional weight or measurement rates and the rate yielding the greater revenue will be charged.

- 2. Except as otherwise provided, all “Port” (i.e., Port-to-Port) rates published herein apply from/to places where the common carrier originates or terminates its actual ocean carriage of cargo. Tolls, Wharfage, Cost of Landing, and all other expenses beyond the port terminal area are for account Owner, Shipper, or Consignee of the cargo and all such expenses levied in the first instance against the Carrier will be billed in an equal amount to the Owner, Shipper, or Consignee of the cargo.**

The “Point” rates named in this tariff are applicable from Inland Points which lie beyond port terminal areas. Such rates will be shown as single-factor through rates.

Such rates shall be inclusive of all charges pertinent to the transportation of cargo (including intermediate but not Origin or Destination Terminal Charges) but not including Customs clearance assessments or Forwarding Charges, except as provided. Alternatively, at shipper's request, carrier will arrange for inland transportation as shipper's agent. All associated costs will be for the account of the cargo. Overland carriers will be utilized on an availability of service basis and not restricted to any preferred Carriers, except as Ocean Carrier deems necessary to guarantee safe and efficient movement of said cargo. (See item 16, re: Advanced Charges.)

Carrier shall not be obligated to transport the goods in any particular type of container or by any particular Vessel, Train, Motor, Barge or Air Carrier, or in time for any particular market or otherwise than with reasonable dispatch. Selection of Water Carriers, Railways, Motor, Barge or Air Carrier used for all or any portion of the transportation of the goods shall be within the sole discretion of the Ocean Carrier.

3. Packages containing articles of more than one description shall be rated on the basis of the rate provided for the highest rated articles therein.
4. Rates as published herein do not include Marine Insurance or Consular fees.
5. Description of commodities shall be uniform on all copies of the Bill of Lading and MUST be in conformity with the validated United States Export Declaration covering the shipment. Carrier must verify the Bill of Lading description with the validated United States Export Declaration. Shipper amendments in the description of the goods will only be accepted if validated by United States Customs.

Trade names are not acceptable commodity descriptions and shippers are required to declare their commodity by its generally accepted generic or common name.

6. Unless otherwise specified, when the rates in this tariff are based on the value of the commodity, such commodity value will be the F.O.B. or F.A.S. value at the port of loading as indicated on the Commercial Invoice, the Custom Entry, the Import/Export Declaration or the Shipper's Certificate of Origin. The F.O.B. value and the F.A.S. value include all expenses up to the delivery at the Loading Port.
7. The rates shown in this tariff except where predicated on specifically lower values or on an ad valorem basis, are subject to Bill of Lading limit of value.
8. Except as otherwise provided, rates published in this tariff apply only to the specific commodity named and cannot be applied to analogous articles. Unless a commodity is specifically provided for the applicable cargo, N.O.S. rate shall be applied.

9. Wherever rates are provided for articles named herein, the same rate will also be applicable on parts of such articles where so described in the ocean bill of lading, except specified rates are provided such parts.
10. **FORCE MAJEURE CLAUSE:** “Without prejudice to any rights or privileges of the carrier’s under covering Bills of Lading, dock receipts, or booking contracts or under applicable provisions of law, in the event of war, hostilities, warlike operations, embargoes, blockades, port congestion, strikes or labor disturbances, regulations of any governmental authority pertaining thereto or any other official interferences with commercial intercourse arising from the above conditions and affecting the Carrier’s operations, the Carrier reserves the right to cancel any outstanding booking or contract in conformity with Federal Maritime Commission Regulations.”
11. When a commodity can properly be carried under more than one tariff item, but which by its nature is clearly influenced by its end use, the freight shall be assessed based on the rate of the end use commodity, eg: Rubber Gloves, Cotton Gloves, etc. would all be rated under “Gloves, N.O.S.” rather than Rubber Goods, Textiles, etc.

The above does not apply in case where there is a specific tariff rate for the commodity in question, eg: If the tariff contains a rate for Rubber Gloves, then this rate will apply – and NOT the Gloves, N.O.S. rate.

12. When two or more rates may be applicable to a given shipment and one rate is more specific than the others, the most specific rate shall apply. One rate is more specific than another when it describes the commodity being shipped more explicitly, i.e.: Canned Pineapple is more specific than Canned Fruit or Canned Goods, N.O.S.

A rate from/to a specific destination is more specific than a rate to/from a geographic range or zone, (Examples): A rate from New York, NY is more specific than a rate from Atlantic and Gulf Base Ports (AGBP). A rate to Yokohama, Japan is more specific than a rate to Japan Base Ports (JBP).

13. Any Tollage, Wharfage, Handling and/or other charges assessed against the cargo at Ports of Loading/Discharge will be for the account of the cargo. Any Tollage, Wharfage, Handling and/or Charges at Port of Loading in connection with storage, handling, and receipt of cargo before loading on the vessel shall be for the account of the cargo.

Any Additional Charges which may be imposed upon the cargo by Governmental Authorities will be for the account of the cargo.

- 1. To ocean carrier's terminal (motor, rail or water), at port of destination declared on the bill of lading at the expense of the ocean carrier. Where parts of centimeter occur in dimensions, such parts below 0.5 cm. are to be ignored, and those of 0.5 cm. and over are to be rounded off to the centimeter above.

3. Calculating Cubic Measurements

The three dimensions in centimeters (rounded off in accordance with (2)) are to be multiplied together to produce the cube of one package or piece in cubic meters to six decimals.

In case of a single package the decimals are to be rounded off at the second decimal, i.e., if the third decimal is below 5 the second decimal remains unaltered; if the third decimal is 5 or higher the second decimal is to be adjusted upwards.

In the case of multiple packages of like dimensions the cube on one package to six decimals is to be multiplied by the number of packages and the total cube is then to be rounded off to the two decimals under the foregoing procedure.

4. OFFICIAL MEASURERS AND WEIGHERS

The straight loaded shipments of consolidator Cargo, stuffed at Carrier's nominated off dock CY locations, does not require measuring/weighing for purposes of confirming volume/weight of cargo. For such shipments, however, there must be a certificate from an officially appointed Sworn Measurer to confirm the exact location at which the shipment was stuffed into the container.

5. MISDESCRIPTION, UNDERWEIGHTS AND UNDERMEASUREMENT

A. The carrier at loading port will assess freight on the shipments on the basis of the gross weights and/or measurements declared or deemed to have declared by Shippers. Such assessment is subject to the terms and conditions of the carrier's Bill of Lading. Notwithstanding the foregoing. Carrier may arrange at the port/point of destination for the verification of the description, measurement or weights of all such shipments as they, at their sole discretion, may decide and in all such cases the description, measurements, or weights so obtained shall be used for determining the correct amount of freight which has to be paid and expense incurred should be for account of cargo.

B. If the gross weights and/or measurements declared by the Shippers are less than those ascertained and if the Shippers, by notification to the Carrier, within seven (7) days of the vessels sailing from port of loading or the consignees, by notification to the Carrier prior to the shipment leaving the custody of the Carrier, maintain that the gross weights and/or measurements stated by them are correct, freight shall be assessed provisionally on the controllers' figures and subsequently adjusted, if necessary, after an outturn reweighing and/or re-measuring. If such outturn reweighing, re-measuring and/or re-surveying shows that the gross weights,

measurements and/or description were understated and/or misdeclared by the Shippers re-measuring and/or resurveying shall be for the account of the cargo.

Rule 2-170:	SUBMISSION OF CARGO DECLARATION DATA

Effective: November, 10, 2010 Thru: NONE Expires: NONE Publish: November 10, 2010

A. SUBMISSION OF CARGO DECLARATION DATA; DEADLINE FOR SAME.

Pursuant to Customs regulations effective December 2, 2002, Carrier is required to submit certain cargo declaration data for all cargo on board a vessel that will call in the United States (i.e., U.S. import cargo and foreign destination cargo remaining on board the vessel) to the U.S. Customs Service not later than 24 hours prior to the time the cargo is loaded on Carrier's vessel at each non-U.S. port of loading. In order to enable Carrier to comply with this requirement, except as provided in paragraph B of this rule, any person tendering cargo to Carrier that is to be transported to the United States or that will be on a vessel when that vessel calls in the United States must provide the following information regarding such cargo to Carrier in writing (including by electronic transmission) in sufficient time for Carrier to transmit the data to the Customs Service at least 24 hours prior to the loading of the cargo on Carrier's vessel. Failure to comply with these requirements will result in cargo not being loaded.

1. A precise description of the cargo (or the 6-digit HTS number under which cargo is classified) and weight of the cargo or, for a sealed container, the shipper's declared description and weight of the cargo. The quantity of cargo shall be expressed in the lowest external packaging unit (e.g., a container containing 10 pallets with 200 cases shall be described as 200 cases). Generic descriptions, including, but not limited to, 'FAK,' 'General Cargo,' 'Cargo, N.O.S.,' 'Chemicals,' 'Foodstuffs,' and terms such as 'Said to Contain' are NOT acceptable descriptions.
2. Shipper's complete name and address, or the identification number issued to the shipper by the U.S. Customs Service upon implementation of the Automated Commercial Environment ('ACE').
3. Complete name and address of the consignee, owner or owner's representative, or its ACE identification number.

4. Internationally recognized hazardous material code when such materials are being shipped.
5. Seal numbers for all seals affixed to the container.

B. TIME FOR SUBMISSION OF DATA BY SHIPPERS TO CARRIER.

Except as otherwise provided below, the time for shipper to submit data to Carrier shall be as follows:

1. Shippers who submit their shipping instructions in paper format will be required to submit their shipping instructions to Carrier no later than seventy-two (72) hours prior to vessel arrival at the foreign port of load. This applies to all U.S. destined cargo as well as cargo intended to be transshipped at a U.S. port and cargo that will remain on the vessel for carriage to a non-U.S. port.

C. CERTAIN NON-VESSEL OPERATING COMMON CARRIERS

Non-vessel operating common carriers ('NVOCCs') that are license by or registered with the FMC and that have obtained Customs bonds may submit the required inbound cargo declaration data directly to the U.S. Customs Service in accordance with Customs Service regulations and guidelines. For purposes of this provision, an NVOCC is registered with the FMC if it has been issued an Organization Number by the FMC, has published a valid and effective tariff, and has posted the required financial security with the FMC.

1. **Certification.** Any NVOCC that submits cargo declaration information directly to the Customs Service shall, unless notified by the Carrier pursuant to subparagraph C(1) above that it is not required to do so, in lieu of the information required to be submitted pursuant to paragraph A of this rule, with a written certification stating that the required inbound cargo declaration data for its cargo has been transmitted to the U.S. Customs Service in a timely and accurate manner. Such certification shall describe the cargo tendered with sufficient specificity (including container number) that Carrier may readily identify such cargo.
2. **NVOCC Co-Loading.** For purposes of this paragraph, the term 'Master NVOCC' shall mean the NVOCC that is the customer of the Carrier and tenders co-loaded cargo to the Carrier in its name. In the event the Master NVOCC submits cargo declaration data for co-loaded cargo directly to the Customs Service, it shall do so for all NVOCCs with which it co-loads. In the event the Master NVOCC does not submit cargo declaration data for co-loaded cargo directly to the Customs Service but NVOCCs with which it co-loads transmit cargo declaration data for their cargoes directly to the Customs Service, it shall be the obligation of the Master NVOCC to provide Carrier with the certification described in subparagraph C(1) with respect to all co-loaded cargo tendered to Carrier by the Master NOVCC.
3. All NVOCCs shall be subject to Paragraphs D and E of this rule.

D. FAILURE TO PROVIDE INFORMATION: DENIAL OF PERMISSION TO LOAD CARGO.

1. In the event Carrier fails to provide the required inbound cargo declaration data to the U.S. Customs Service for all cargo to be loaded on its vessel within the time period required by Customs Service regulations it may, among other things, be assessed a civil penalty, denied permission to unload the cargo for which information was not

timely provided, and/or denied permission to unload any cargo from the vessel on which the cargo is moving. Accordingly, Carrier may refuse to load any cargo tendered to it for which it has not received either (i) the data required by paragraph A of this rule by the deadline specified pursuant to paragraph B; or (ii) the certification required by paragraph C of this rule by the deadline specified therein.

2. Any and all costs incurred by Carrier with respect to cargo in its possession which is not loaded due to the non-provision of information or certification, or which is not loaded pursuant to the instructions of the U.S. Customs Service (regardless of whether or not the required data or certification has been provided for such cargo), including but not limited to inspection, storage and/or re-delivery costs, shall be for the account of the cargo. Carrier shall have a lien on cargo in its possession for amounts due hereunder and may hold cargo until such amounts (and any other unpaid freights or charges) are paid or sell such cargo after a reasonable period. In the event Carrier is forced to take legal action to collect amounts due hereunder, Carrier shall be entitled to recover all costs (including reasonable attorneys' fees and expenses) incurred in connection with such legal action.

E. INDEMNIFICATION OF CARRIER.

If Carrier is assessed a civil penalty or fine or is denied permission to unload cargo, because of the failure of any and all shippers, consignees, cargo owners, NVOCCs, shippers' associations and their agent(s) shall be jointly and severally liable to indemnify and reimburse Carrier for any such penalty or fine and any all costs, damages or liability, direct, indirect, special or consequential, incurred by the Carrier as a result of the denial of permission to unload cargo or any delays related thereto. Carrier shall have a lien on cargo in its possession for amounts due hereunder and may hold cargo until such amounts (and any other unpaid freights or charges) are paid or sell cargo after a reasonable period. In the event Carrier is forced to take legal action to collect amounts due hereunder, Carrier shall be entitled to recover all costs (including attorneys' fees) incurred in connection with such legal action.

F. CONFIDENTIALITY. Carrier acknowledges that the information required by the Customs Service may constitute confidential information that is not generally available to the public. Carrier, in accordance with the requirements of Section 10(b)(13) of the Shipping Act of 1984, as amended, will keep confidential, to the extent permitted by law, all Shipper bill of lading information, including information related to underlying shippers and commodities in respect of containers of less than containerload cargo containing shipments by more than one Shipper.

The Carrier shall be entitled to the full benefit of and right to all limitations of or exemptions from liability authorized by any provisions of Sections 4281 to 4287 of the Harter Act, as amended, and of any other provisions of the laws of the United States, and without prejudice to the generality of the foregoing, also any laws, statutes, or regulations available to the owner of the vessel(s) on which the Goods are carried. If and to the extent that the provisions of the Harter Act of 1893, as amended, would otherwise be compulsorily applicable to regulate the Carrier's responsibility for the goods during any period prior to loading on or after discharge from the vessel, the Carrier's responsibility shall instead be determined by the provisions of section (3) below, but if such provisions are found to be invalid, such responsibility shall be subject to COGSA. It is agreed that such Acts and Laws shall also apply to deck cargo.

3. CARRIER'S RESPONSIBILITY:

- A. PORT TO PORT SHIPMENT:** Except as otherwise provided herein, the Carrier's responsibility for Goods shall commence at the time when such Goods are received by the Carrier at the Port of Loading and shall terminate when such Goods are delivered by or on behalf of the Carrier at the intended Port of Discharge. Notwithstanding the above where the space(s) entitled "Place of Receipt" and/or "Place of Delivery" on the face hereof are completed, the contract contained in or evidenced by this Bill of Lading is for through transportation from and/or to the place(s) so named and the Carrier's responsibility shall then commence at the time when the Goods are delivered at the Place of Delivery so named (if any) and/or terminate when the Goods are delivered at the Place of Delivery so named (if any). The Merchant constitutes the Carrier as agent to enter into contracts on behalf of the Merchant with other for transport, storage, handling or any other services in respect of the Goods prior to loading and subsequent to discharge of the Goods from the vessel without responsibility for any act or omission whatsoever on the part of the Carrier or others and the Carrier may as such agent, enter into contracts with other on any terms whatsoever including terms less favorable than the terms in this Bill of Lading.
- B. COMBINED TRANSPORT:** Save as is otherwise provided in this Bill of Lading, the Carrier shall be liable for loss of or damage to the Goods occurring from the time that the Goods are taken into his charge until the time of delivery to the extent set out below.
- 1. Where the stage of Carriage where the loss or damage occurred cannot be proved:**
 - (I)** The Carrier shall be entitled to rely upon all exclusions of liability under the rules or legislation that would have applied under 5(A)(a) above had the loss or damage occurred at sea or, if there was no carriage by sea, under the Hague Rules (or COGSA).
 - (II)** Where under (1) above, the Carrier is not liable in respect of some of the factors causing the loss or damage, he shall only be liable to the extent that those factors for which he is liable have contributed to the loss or damage.

- (III) Where the Hague Rules (or any legislation applying such rules or Hague-Visby Rules such as COGSA) is not compulsorily applicable the Carrier's liability shall not exceed US \$2.00 per kilo of the gross weight of the Goods lost, damaged or in respect of which the claim arises or the value of such Goods, whichever is the lesser.
- (IV) The value of the Goods shall be determined according to the commodity exchange price at the place and time of delivery to the Merchant or at the place and time when they should have been so delivered, or, if there is no such price, according to the current market price be reference to the normal value of the Goods of the same kind and quality, at such place and time.

2. Where the stage of Carriage where the loss or damage occurred can be proved:

- (I) The liability of the Carrier shall be determined by the provisions contained in any international convention or national law of the country which provisions (II) cannot be departed from by private contract to the detriment of the Merchant (III) would have applied if the Merchant had made a separate and direct contract with the Carrier in respect of the particular stage of Carriage where the loss or damage occurred and had received as evidence thereof any particular document must be issued in order to make such international convention or national law applicable, and, (IV) where neither (I) or (II) above shall apply any liability or the Carrier shall be determined by 5(C)(a) above.

C. DELAY, CONSEQUENTIAL LOSS: Save as otherwise provided herein, the Carrier shall in no circumstances be liable for direct, indirect or consequential loss or damage by delay or any other cause whatsoever and howsoever caused. Without prejudice to the foregoing, if the Carrier is found liable for delay, liability shall be limited to the freight applicable to the relevant stage of the transport.

D. PACKAGE OR SHIPPING UNIT LIMITATION: Where the Hague Rules or any legislation making such Rules compulsorily applicable (such as COGSA) to this Bill of Lading apply, the Carrier shall not, unless a declared value has been noted in accordance with (c) below, be or become liable for any loss or damage to or in connection with the Goods in an amount per package or shipping unit in excess of the package or shipping unit limitation as laid down by such Rules or legislation. Such limitation amount according to COGSA is US\$500. If no limitation amount is applicable under such Rules or legislation, the limitation shall be US\$500.

E. AD VALOREM DECLARED VALUE OF PACKAGES OR SHIPPING UNIT: The Carrier's liability may be increased to higher value by a declaration in writing of the value of the Goods by the Merchant upon delivery to the Carrier of the Goods for shipment. Such higher value being inserted on the front of this Bill of Lading in the space provided for and, if required by the Carrier, extra freight paid in such case. If the actual value of the Goods shall exceed such declared value, the value shall nevertheless be deemed to be the declared value and the Carrier's liability, if any, shall not exceed the declared value

and any partial loss or damage shall be adjusted pro rata on the basis of such declared value.

- F. RUST, ETC:** It is agreed that superficial rust, oxidation or any like condition due to moisture is not a condition of damage but is inherent to the nature of the Goods and acknowledgement of receipt of the Goods in apparent good order and condition is not a representation that such conditions of rust, oxidation or the like did not exist on receipt.
- G. NOTICE OF LOSS OR DAMAGE:** The Carrier shall be deemed prima facie to have delivered the Goods as described in this Bill of Lading unless notice of loss or damage to the Goods indicating the general nature of such loss or damage shall have been giving in writing to the Carrier or to his representative at the place of delivery before or at the time of removal of the Goods into the custody of the person entitled to delivery thereof under this Bill of Lading or, if the loss or damage is not apparent within three consecutive days thereafter.
- 4. REFRIGERATED CARGO:** Goods of a perishable nature shall be carried in ordinary containers without special protection, services or other measures unless there is noted on the reverse side of this Bill of Lading that the goods will be carried in a refrigerated, heated, electricity ventilated or otherwise specifically equipped container or are to receive special attention in any way. Carrier shall not be liable for any loss of or damage to Goods in a special hold or container arising from latent defects, derangement, breakdown, or stoppage of the refrigeration ventilation or heating machinery, insulation, ship's plant, or other such apparatus of the vessel or Container, provided that Carrier shall before or at the beginning of the Carriage exercise due diligence to maintain the special hold or Container in an efficient state Merchant undertakes not to tender for transportation any goods which require temperature control without previously giving written notice of their nature and the required temperature setting of the thermostatic controls before receipt of the goods by Carrier. In the case of a temperature controlled Container stuffed by or on behalf of the Merchant, Merchant further undertakes that the Container has been properly pre-cooled, that the Goods have been properly stuffed in the Container, and that its thermostatic controls have been properly set by the Merchant before receipt of the Goods by the Carrier. Merchant's attention is drawn to the fact that refrigerated containers are not designed to freeze down cargo which has not been presented for packing at or below its designated carrying temperature. Carrier shall not be responsible for the consequences of cargo tendered at a higher temperature than that required for the transportation. If the above requirements are not complied with, Carrier shall not be liable for any loss or damage to the goods whatsoever.
- 5. CARGO STOWED IN CONTAINERS BY MERCHANTS:** The Carrier shall not be responsible for the safe and proper stowing of cargo in containers if such containers are loaded with cargo by Merchant, consolidator or inland carrier, and no responsibility shall attach to the Carrier for any loss or damage caused to contents by shifting, overloading or improper packing of the container. Containers loaded by the Merchant or their agent shall be properly sealed and the seal identification reference, as well as the

container reference, shall be shown herein. The merchant, consolidator or inland carrier inspect containers before loading them and loading of the containers shall be prima facie evidence that the containers were sound and suitable for use. Carrier has the right but not the obligation to open and inspect the containers at any time without notice to Merchant, and expenses resulting from such inspections shall be borne by Merchant. Merchant warrants that the stowage and seals of the containers are safe and proper and suitable for handling and carriage and indemnifies Carrier for any injury, loss or damage caused by breach of this warranty. The Carrier will not be liable in any event for the particulars furnished by the Merchant as shown on the face of this Bill of Lading. This Bill of Lading is a receipt only for the number of containers, packages or pieces as shown on the face of this Bill of Lading. The Carrier has counted only the number of containers (If containers received already loaded) or the number of packages or pieces (if the Carrier has loaded the container) and under no circumstances shall the Bill of Lading be prima facie evidence of the marks, quantity, weight, description, measurement and other particulars furnished by the Merchant. Delivery shall be deemed as full and complete performance when the containers are delivered by Carrier with the seals intact.

The Merchant shall defend, indemnify and hold harmless the Carrier against any loss, damage, claim, liability, or expense whatsoever arising from one or more of the following matters: loss or damage caused by the manner in which the Container has been stuffed; loss or damage caused by the unsuitability of the Goods for Carriage in Containers; loss or damage caused by the unsuitability or defective conditions of the Container, provided that where the Container has been supplied by or on behalf of the Carrier, this paragraph shall only apply if the unsuitability or defective condition would have been apparent upon reasonable inspection by the Merchant at or prior to the time when the Container was stuffed; and loss or damage if the Container is not sealed at the commencement of the Carriage except where the Carrier has agreed to seal the Container.

Any act involving delays resulting from such activities shall not be deemed a deviation of whatsoever nature or degree.

c) **Hindrance affecting Performance:**

1. Carrier shall use reasonable endeavors to complete transport and to deliver the goods at the place designated for delivery. If at any time the performance of this contract as evidenced by this Bill of Lading in the opinion of Carrier is or will be affected by any hindrance, risk, delay, injury, difficulty or disadvantage of any kind including strike and if by virtue of the above it has rendered or is likely to render it in any way unsafe, impracticable, unlawful, or against the interest of

Merchant shall reimburse Carrier forthwith upon demand for all extra freight charges and expenses incurred for any actions taken according to sub-part 6(c), including delay or expense to the Ship, and Carrier shall have a lien upon the goods to that extent.**
- 3. If by reason of and/or in compliance with any such order, direction, regulation, or suggestion. - e) Stowage in Containers: Where the goods are not received by Carrier already in containers or the Carrier is instructed to provide a Container, in the absence of a written request to the contrary, the Carrier is not under an obligation to provide a**

Container of any particular type of quality. Goods may be stuffed by the Carrier and may be stuffed with other Goods. Merchant shall be liable to Carrier for damage to Carrier's containers or equipment if such damage occurs while such equipment is in control of Merchant or his agents. Merchant indemnifies Carrier for any damage or injury to persons or property caused by Carrier's containers or equipment during handling by or when in possession or control of Merchant.

f) **On Deck Storage:** Containers, whether goods therein be stowed by the Carrier or by the Merchant, and uncontainered unit load machinery may be carried on or under deck without notice to the Merchants and if they are so carried the Hague Rules are incorporated herein shall be applicable notwithstanding carriage on or under deck and the Goods and/or containers shall contribute in General Average whether carried on or under deck.

The Carrier shall not in any event be liable for any loss, delay, damage or injury to the Goods, or to other property or to any persons arising out of the use or handling of Carrier's containers by Merchant or their agent. Merchant shall defend, indemnify and hold the Carrier harmless from and against any and all claims, loss, damage or fines on a container or the Goods before delivery to the Carrier at the port of loading or between containers to the Carrier. If the goods are delivered in a container, the Merchant undertakes to return the container promptly to the carrier in the same condition as when received from the Carrier. The Merchant warrants to the Carrier that the particulars relating to the Goods as set out overleaf have been checked by the Merchant on receipt of this Bill of Lading and that such particulars, and any other particulars furnished by or on behalf of the Merchant, are adequate and correct. LIEN: The Carrier shall have a general lien on all property (and documents relating thereto) of Merchant, in its possession, custody or control or en route, for all claims for Charges, expenses or advances incurred by Carrier in connection with any shipments of Merchant. If such claim remains unsatisfied for 30 days after demand for its payment is made, Carrier shall be entitled to sell the goods privately or by auction, without prior notice to the Merchant, as may be necessary to satisfy such lien and the costs of recovery, and apply the net proceeds of such sale to the payment of the amount due Carrier. 17. SEVERABILITY: If any provision in this Bill of Lading is held to be invalid or unenforceable by any court or regulatory or self regulatory agency or body, such invalidity or unenforceability shall attach only to such provision. The validity of the remaining provisions shall not be affected thereby, and this Bill of Lading contract shall be carried out as if such invalid or unenforceable provisions were not contained herein.

18. SURRENDER AND NEGOTIABILITY OF BILL OF LADING: This Bill of Lading shall be non-negotiable unless made out "to order," in which event it shall be negotiable and shall constitute title to the Goods and the holder in due course shall be entitled to receive or to transfer the Goods herein described. If required by the Carrier, the Bill of Lading, duly endorsed, must be surrendered to the agent of the Carrier at the port of discharge, in exchange for delivery order. This Bill of Lading shall be prima facie evidence of the Carrier's receipt of the Goods as herein described.
